Renee:

I recommend that we do not change names at this stage. I have tasked Ray Gallucci to take a look at **ALL** comments provided by ACRS and and start addressing them. Changing the name at this stage can raise more questions that Ray would have to answer at the last minute.

Eva,

I would recommend that NRR start calling the criteria, "Interim Acceptance Criteria" vs. feasibility because ACRS had concerns with the term and bottom line, the actions are either acceptable or not.
