

From: Erasmia Lois *RLS*
 To: Julius Persensky *J*
 Date: Thu, Jan 22, 2004 8:04 AM
 Subject: Re: Fwd: HRA/PRA OpManAx Workshop (1/22-23) + Agenda

The ROOM IS: O-4B6 and NOT 10B6!

>>> Julius Persensky 01/22/04 08:03AM >>> *RLS*
 Erasmia and Jim, I have very limited time today but Paul and Joel can share coverage and I will stop by when I can *Release*

>>> Erasmia Lois 01/22/04 07:59AM >>> *RLS*
 If any one of you is available/interested, please come to this important meeting!

Place: 0-10B6 *Release*

time: 8:30- 5:00 pm with potential continuation on Friday.

Agenda:

Agenda for Fire Manual Actions Workshop
 January 22 and 23, 2004

Thursday, Jan 22nd:

8:30am - 8:45am Introductory remarks
 8:45am - 10:00am Discussion of Meeting Objective

Proposed Objective:

Development of quantitative criteria to assess the likelihood of successfully accomplishing fire related manual actions. An addendum to this would be the determination of a threshold value for allowing credit for a given action.

10:00am - 10:15am Break
 10:15am - 11:30am Discussion of Issues Related to Reaching the Meeting Objective

Potential Issues:

- 1) Role of number and complexity
- 2) Given the wide range of potential contexts, is it "reasonable" to expect to be able to develop a reasonable/useable number of rules?
- 3) Notion of striving to develop conservative criteria, then requiring actual, detailed HRA if obtained values are unacceptable to the plant
- 4) ?

11:30am - 12:30pm Lunch
 12:30pm - 1:45pm Discussion of Possible Approaches for Representing Quantitative Criteria.

Possible Options:

- 1) Time Reliability Approaches (ASEP)
- 2) SPAR-H
 - 2) Fire SDP "like" approach (decision trees?)
 - 3) A parallel to fire quantitative screening criteria (fire re-quantification studies)
 - 4) Anchors (Generalized Contextually Anchored Probabilities)

CC-4

5) ?

1:45pm - 2:00pm Break

2:00pm - 3:15pm Trial attempts to develop potential criteria.

3:15pm - 3:30pm Break

Agenda for Fire Manual Actions Workshop (continued)
January 22 and 23, 2004

3:30pm - 5:00pm Continued trial efforts and plans for Friday. Does it make sense to attempt to do some expert elicitation?

Friday, Jan 23rd:

8:30am - 12:30pm TBD

CC: James Bongarra; Joel Kramer; Paul Lewis; Ray Gallucci
