 Subject: Re: Wish List - Phil, Erasmia take note

Ray:

I'm a bit behind on my correspondence...regarding the HF/HRA expert for the panel, I'd suggest Dave Gertman, Bruce Hallbert, or Harold Blackman, all from INEEL, as candidates for this slot. As a backup, Jim Higgins from BNL.

Jim

 Of course - and here it is.

✓>>> James Bongarra 02/17/04 10:29AM >>> *RR*
 was there supposed to be an attachment to this email?? Also, I agree that Ron Laughery would be a good candidate for the panel.

 Thanks for the input. I've attached suggestions and assignments to the various wishes. Please send me suggestions, etc.

Erasmia - once Sunil and Hossein give the go-ahead on this, will you coordinate assembly of the panel? Phil will work on assembling the info. I'll help where needed.

If we're going to have an industry person on the panel, please offer suggestions ASAP.

 Ray, *-RES Release*

Attached is the wish list we discussed for the types of fire manual actions and the expert panel. Until you indicate otherwise, we will assume that the NRC will be trying to identify and enlist the participation of the expert panel. But just let us know if you need us to help in some way.

By the way, we had the thought that if Gareth has the time, given his background in PRA, HRA, and general power plant experience etc. he would probably be a good choice for the panel.

Thanks, John
