Subject: ANO Meeting on Fire Protection

I have set-up a meeting with ANO to discuss their corrective actions to date regarding the fire protection white finding. The meeting is on July 12 from 8:30 to 11:30 (CT).

ANO plans to discuss the proposed actions and time line for implementing modifications and/or procedure changes. They also want to discuss the mechanism for closing the white finding.

Rebecca, can you check with the fire protection folks in HQ that might be interested to see if they want to be present or if they want to attend via video conference? Given the connection to manual operator actions, I think it would be prudent to have a HQ representative participate in the meeting.

Mel please let me know if you are interested in attending the meeting.
