~~PERSONAL INFORMATION~~

you are correct, Dave. Minor slippages to internal milestones are ok, provided we meet the final due date.

If I understand John's thought correctly, NRR/DSSA will provide OE with input as requested by 5/21 and OE will provide enforcement actions SECY to EDO by 7/23/04. An additional extension request beyond what is currently anticipated for December 2004, per John, is not a desirable option.
