Hi Everyone,

*SANDIA / RES*

Attached is the summary of the results of the two meetings. I just added new sections to cover the last session and our conclusions. Although I made a few minor word changes in the earlier sections, most of the new stuff can be found roughly between pages 21 - 33. Please review as soon as possible and let me know if the write-up is consistent with your memory of things. Did I leave anything out? Is anything confusing etc.

*P*

Thanks, John
