 Subject: RE: Reg Guide for OpManAx

John/Alan,
 Jim has kindly tracked down the latest directive (draft) on reg guides which I will fax to you. I've taken a quick look and it appears that are no major changes from the 2001 version previously faxed to you with the exception of a Security Review (see page 5 of the Reg Guide Handbook). *MA*

Jim - thanks for tracking down the latest copy.

Alex

-RES

Alan and I do not expect to have any problems getting done what you redlined. We plan to send you a draft next week and should be able to iterate during June to get it in the shape you need. We also expect to be able to get the June RES work done also. So I think things are OK. *Revised*

John

 Ray,

I should be able to make some time available for an end-of-summer version and Alan indicated he could help also. However, a potential problem is the current level of funding under the FIN. Probably something you and Erasmia will need to discuss.

RES - Release

John
