**LETTER TO THE EDITOR**

First Energy Corporation is the parent company of Jersey Central Power & Light Co, operator of the Oyster Creek Nuclear Plant, the oldest in the country.

So when we read the Associated Press article on 3/19/05 that a federal judge in Ohio accused the utility of spewing dirty air all over the northeast and then penalized First Energy Co. \$1.1 BILLION for violations of the Clean Air Act, including making physical changes at it's coal fired plant without upgrading pollution controls.

After reading this, I think the people of Ocean County should check their iodine pill supply and keep their car fuel tanks filled at all times in case they need a hasty retreat.

Let us pray!

Thomas J. Cervasio  
Chairman EnviroWatch
