SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL (OPERATING TEST)

Dear Mr. White:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Limerick Generating Station, Units 1 and 2.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to you. Note that any examination waivers have been addressed in separate correspondence.

The NRC has approved the examination materials for the operating test in accordance with Revision 9 of NUREG-1021, "Operator Licensing Examinations Standards for Power Reactors". The NRC staff will administer the operating tests during the weeks of January 10 and January 17, 2005.

We have not yet completed our review of the written examinations. We will notify you by separate letter when our review is complete and to also authorize your staff to administer that remaining portion of the licensing examination.

Please contact your Chief Examiner, Mr. Todd Fish, at 610-337-5369, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

/RA by J. W. Lubinski Acting For/

Richard J. Conte, Chief
Operational Safety Branch
Division of Reactor Safety
