AFFIDAVIT

1. My name is Thomas P. Mundy. I am employed by Exelon Generation Company, LLC (Exelon) as Director, Project Development, for the early site permit (ESP) for the Clinton site.

2. Under my direction and control, a search was performed of the electronic and hardcopy files of Exelon, its contractors for the ESP project as related to Contention 3.1, and its attorneys for the types of information specified in 10 CFR § 2.336(a). This search encompassed the project files and the relevant files of individuals who had responsibility with respect to matters related to Contention 3.1. This search did not encompass files maintained for purposes other than the ESP project or files of individuals not involved in the ESP project. However, I did request other Exelon groups to provide me with any documents in their possession, custody, or control that pertain to the analysis of wind and solar power (and combinations thereof with gas or coal-fired generation facilities) in Section 9 of the Environment Report for the Clinton ESP. These other groups informed me that they did not have any such documents.

3. Attachments 2, 3, and 4 identify the relevant documents that were located as a result of this search. These Attachments indicate through the use of revision bars additions to the Attachments made since the filing of the previous discovery disclosures.

4. These disclosures are accurate and complete as of the date of this affidavit.

I hereby swear and affirm that the foregoing is true and correct to the best of my knowledge, information, and belief.

Thomas P. Mundy
