RE: Control # 136736/136737 - Access for decommissioning.

Dear Ms. Beardsley:

This letter is to confirm that Dr. Sandra Gracia-López/CRMI will be allowed complete access to the Nuclear Medicine areas to perform all the necessary decommission and closeout surveys whenever necessary. The decommissioning is a requirement of the Nuclear Regulatory Commission and the Puerto Rico Health Department. These surveys will be completed upon the completion and/or termination of the lease contract for the Nuclear Medicine Clinic Facility.

If you need further information, please feel free to contact me at (787) 735-8001 ext. 1112.

Sincerely,

  
Miguel José Rustelo  
Administrator
