Subject: Amendment request		
<p>Summary:</p> <p>1) You requested to decommission your current HDR program, but to retain HDR authorization pending future initiation of mobile service by The Regional Cancer Center TRCC). It is not possible to retain this authorization with no HDR unit on the license. Before initiation of mobile service, you will need to amend license again to address issues unique to mobile HDR. Licensee anticipates they will request to remove HDR authorization for now, then submit a new request concurrent with TRCC's amendment request to initiate the mobile service.</p> <p>2) Documentation provided of return of final HDR source to Nucletron is insufficient. Please provide signed letter from Nucletron documenting source receipt.</p> <p>3) Closeout survey results were provided in units of cpm. Please resubmit in units of net dpm.</p> <p>4) Is your IVB program still active? Licensee responded that it is.</p> <p>5) As discussed previously, amendment requests should be signed by senior management .</p>		
Action Required/Taken: Await faxed response from licensee
