Re: **Amendment Request (in Addition to Closeout of the Preventative Location)**
Change Licensee Mailing Address: License # 21-16754-01
Control #313692

Dear Ms. Casey:

We recently mailed a response to your letter dated November 16, 2004 regarding the closeout of the Preventative location on Gilbert Street. (The response letter most likely has not yet been received by the NRC.)

In addition to the closeout of the Preventative location, we respectfully request an additional change to our license. We would like to change the mailing address of our license. The changed address will be for correspondence purposed only. This address is not a location of radioactive materials use.

We would like to change the mailing address to the following:

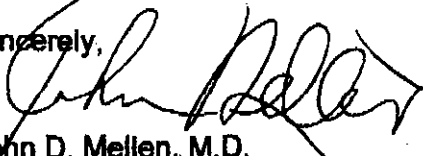

**Radiology Associates, P.C.
1801 Harvest Lane
Bloomfield Hills, MI 48302**

We hope that this change can be done concurrently with the removal the Preventative location due to need to make the change in a timely manner.

Thank you for assisting us with this matter.

If you have any questions, please contact our physics consultant, Cari Dzanbazoff, at 734-662-3197 or e-mail CariDz@aolcom.

Sincerely,

John D. Mellen, M.D.
