

April 18, 2005

Mr. Christopher Hynes  
Supervisor, Operations Training  
FirstEnergy Nuclear Operating Company  
Beaver Valley Power Station  
Training Center  
State Route 3016  
Shippingport, PA 15077

Dear Mr. Hynes:

The purpose of this letter is to inform you of the individual examination results for your applicants on the initial written examination conducted on March 7, 2005, and the walkthrough (overall) and/or simulator operating tests administered February 24 to March 4, 2005 at your facility. This meets the intent of section E.1 of the Examiner Standards (ES 501) in NUREG 1021. Eleven individuals were administered the examination and ten passed. However, as explained in paragraph D.3.c of Examination Standard (ES) 501 in NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 9, we will not issue two licenses for two of the applicants who passed until you certify in writing that they have acquired all of the training and experience for which they were previously granted a waiver. This information is considered to be "proprietary" in accordance with 10 CFR 2.390 and it supplements the information contained in the related examination report for your facility which will be issued shortly.

Enclosure 1 is the completed ES-501-2, Power Plant Licensing Examination Results Summary, and is a summary of overall examination results.

Enclosure 2 contains the individual results ES-303-1 and 303-2, Operator License Examination Report, for the applicants. Contained therein are the deficiencies noted for each applicant. In accordance with your Systems Approach to Training (SAT) Program, we expect that you will review these results and provide appropriate remedial training for the individual independent of the overall pass status. The applicant has authorized the release of this information to your facility by signing Block 19A of NRC Form 398.

Enclosure 3 is a copy of the licenses.

Mr. Christopher Hynes
