Mr. C. Wesley Rowley, PE
Vice President, The Wesley Group
5905 E. 114th Street
Tulsa, OK 74137-7756

Dear Mr. Rowley:

In your capacity as the Chair of the American Society of Mechanical Engineers (ASME), Board of Nuclear Codes and Standards, I would like to nominate Edmund J. Sullivan, Jr. to replace Michael E. Mayfield as the authorized Nuclear Regulatory Commission (NRC) representative for the board, which you chair.

Mr. Sullivan is a Senior Level Advisor and is responsible for issues associated with the integrity of the reactor coolant pressure boundary. Mr. Sullivan is in the Materials and Chemical Engineering Branch within the Office of Nuclear Reactor Regulation.

In accordance with the Office of Management and Budget Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives who participate in standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence should be addressed to:
