Ms. Burton:

I see why you had trouble locating this reference. I did too. The study starts on page 260 of the document entitled ; "An Evaluation of Cooling Water System Alternatives," in the PDR at ADAMS accession number ML040980392.

Dear Mr. Emch:

In Section 4.10 of the Millstone SEIS, you reference the following source:

Adams, E.E. 2001. Thermal Plume Analysis for Millstone Power Station, Units 2-3. Massachusetts Institute of Technology, Cambridge MA.

We would appreciate the opportunity to review this study but have not been able to locate it. At your convenience, please provide a copy. We will gladly reimburse the NRC for copying and mailing charges.

Thank you.
