Ms. Burton:

The comment period for the draft Supplemental Environmental Impact Statement for License Renewal of Millstone Power Station, Units 2 and 3 (NUREG-1437, Supplement 22) ended on March 2, 2005. As indicated in the Federal Register notice dated December 9, 2004, and at the public meeting on January 11, 2005, we accepted comments for consideration received after the deadline to the extent practicable. We have accepted your comments dated March 16, 2005; however, in light of our overall review schedule, it became no longer practicable to accept comments for consideration on March 23, 2005, three weeks after the noticed comment deadline. The time period for acceptance of comments on NUREG-1437, Supplement 22, is closed.
