Dear Mr. Emch:

No NRC employee should have been confused by the article in yesterday's Hartford Courant, but rather enlightened. We hope that you were able to circulate the article - and those that appeared in the New London Day as well as the Norwich Bulletin - widely within the NRC. We will include the articles as well in our supplemental filing to be submitted on Monday, March 14, concerning the draft EIS. Your draft EIS will need to be radically revised in light of this exposure of the deadly impact of Millstone on the community - and, most unforgivably, its children and its unborn children.

Please be sure that Mr. Chip Cameron receives a copy of this email and the news articles, as well as the Commissioners of the NRC and their staff.
