MEMORANDUM TO: Jack R. Strosnider, Director  
Office of Nuclear Material Safety  
and Safeguards

FROM: Larry W. Camper, Director **/RA DMG for/**  
Division of Waste Management  
and Environmental Protection

SUBJECT: PAPER TO BE PRESENTED AT ANS MEETING IN DENVER,  
COLORADO, AUGUST 7-11, 2005

Per Management Directive 3.9 and NMSS Policy and Procedures Letter 1-39, attached is a paper entitled "NRC [[Nuclear Regulatory Commission]] Durable Long-Term Control System to Sustain Site Protection." This paper summarizes NRC's approach for restricted use sites based on the License Termination Rule and decommissioning guidance and highlights innovation approaches to difficult issues. There are no significant implications or new or unresolved policy issues in the paper nor does the paper include classified, sensitive unclassified, or nonpublic information. The paper will be presented by Andrew Persinko of my staff.

Approval of the paper should be indicated below and returned to Robert L. Johnson.
