SUBJECT: SUMMARY OF **CLOSED** MEETING HELD ON APRIL 27, 2005, WITH WESTINGHOUSE TO DISCUSS PROPRIETARY INFORMATION RELATED TO A PRESENTATION FOR THE CHF CORRELATION FOR PWR FUELS SUBMITTAL (TAC NO. MB1365)

On April 27, 2005, representatives of Westinghouse Electric Company (Westinghouse) met with the Nuclear Regulatory Commission (NRC) staff to discuss proprietary material for an upcoming submittal. The meeting was requested by Westinghouse.

Westinghouse began the meeting with an overview of the topical report, including the ranges of fuel designs that would be covered and the range of information used to develop the topical report. The NRC staff discussed different ways to improve the review and minimize requests for additional information. One suggestion was to develop a table that lists limitations of integrated topical reports and explains how this report meets or does not meet those limitations. Finally, Westinghouse discussed scheduled dates. Following the meeting, the NRC staff expressed its appreciation to Westinghouse for the presentation.

An attendance list is provided in the attachment. The non-proprietary slides used during the meeting are available in the Agencywide Documents Access and Management System under accession number ML051160312.
