SUBJECT: PERRY NUCLEAR POWER PLANT, UNIT 1 - CORRECTION TO SAFETY
EVALUATION RE: REVISIONS TO PHYSICAL SECURITY PLAN, TRAINING
AND QUALIFICATION PLAN, AND SAFEGUARDS CONTINGENCY PLAN
PURSUANT TO COMMISSION ORDER EA-03-086 (TAC NO. MC5378)

Dear Mr. Anderson:

By letter dated October 28, 2004, the Nuclear Regulatory Commission (NRC) issued an administrative license change to the Perry Nuclear Power Plant, Unit 1, Facility Operating License NPF-58, to incorporate the reference to the recently-revised physical security plan, training and qualification plan, and safeguards contingency plan.

By letter dated December 10, 2004, you identified inconsistencies in the safety evaluation (SE) associated with the October 28, 2004, letter. The NRC staff has reviewed the inconsistencies identified in your letter, and concluded that the inconsistencies required modification of the SE. For the most part, the inconsistencies you identified were either editorial in nature or clarified the SE with regard to statements made in the revised security plans. The NRC staff also determined that several of the items identified did not warrant changes. The corrections made to the SE did not affect the NRC staff's previous evaluation of the revised security plans.

NOTICE: Enclosure contains Safeguards Information. Upon separation from Enclosure, this letter is DECONTROLLED.
