Dear Mr. Hueter:

We discussed additional information needed to support the Amendment request for NRC license 22-15403-02. To be in compliance with NRC policy is to have one individual assigned primary responsible for NRC licensed activities, Penny Burggraff (ARSO), will only act for the RSO for short periods of time in the absence of the RSO. She will report to the RSO upon his return for any duties performed for the RSO.

Sincerely,

Jeff Senarighi
