Certification Request

May 17, 2005

To: Pre Application Presiding Board
Nuclear Regulator Commission
Washington DC 20555-0001

From: Mineral County Nuclear Projects Office
P.O. Box 1600
Hawthorne, NV 89415

This document is in request for an Electronic Information Exchange Certification from the Nuclear Regulator Commission's Pre Application Presiding Board. As such we would like to inform you that Mineral County Nuclear Waste Oversight Program, to the best of our knowledge, has made all our documentary material available in electronic format in accordance with Section 2.1003 of the LSN Rule as per the following bulleted list.

- Designated an official who will be responsible for administering (Licensing Network Administrator [LSNA]) their License System Network (LSN) responsibilities.
- Designated a technical point of contact for various functions including who will act as webmasters for our LSN site, who is responsible for the website help desk, and who should be contacted for loss of server and related problems.
- Established procedures to implement the requirements of Section 2.1003 of the LSN Rule.
- Made all our documentary material available in electronic format in accordance with Section 2.1003 of the LSN Rule.
- Made available (for inspection and copying) any document not provided in electronic form within five business days should it be requested.
- Complied with all standards for presentation of documentary materials established by the LSNA.
- Complied with all operational and functional standards regarding LSN website operation and maintenance as established by the LSNA and the License System Network Administrator Review Panel (LSNARP) TWG.
- Cooperated in the LSNA review of corrected, changed, or deleted documents on their LSN website.
- Cooperated in the advisory review process established by the NRC under Section 2.101 1(d) of the LSN Rule.

- Will demonstrate substantial and timely compliance with participation in the licensing proceedings in accordance with the requirements of Section 2.1003 of the LSN Rule.
- Will transmit all filings in the adjudicatory proceeding on the license applications electronically according to established requirements.

Sincerely,

Loreen Pitchford Consulting
Designated Licensing Network Administrator and,
Website Point of contact

Nancy Black
Mineral County Commissioner

cc: Linda Mathias
Director of Mineral County Nuclear Projects Office
