

May 17, 2005

Mr. John Parker
Radiation Control Bureau
Field Operations Division
New Mexico Department of Environment
P. O. Box 26110
Sante Fe, NM 87502

Dear Mr. Parker:

We have reviewed the proposed State of New Mexico regulations related to New Mexico Radiation Protection (20.3 NMAC) Parts 3, 4, 12, and 15 received by our office on March 28, 2005. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 20, 30, 31, 32, 36, 39, and 150 and the requirements of the six amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Mr. Stanley Fitch on April 5, April 6, and May 2, 2005.

As a result of our review, we have no comments. In addition, per our conversation with Mr. Fitch, we have also modified SRS summary. Amendment 1999-1 has been designated as "Not Required" and amendment 1995-4 is shown as final, in association with the NRC review dated June 12, 2002. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that New Mexico's regulations meet the compatibility and health and safety categories of the equivalent NRC regulations may only be made based on a review of the final New Mexico regulations. However, we have determined that if your proposed regulations were adopted without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes and provide a copy to STP.

The SRS Data Sheet summarizes our knowledge of other New Mexico regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrcd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Linda McLean at (817) 860-8116 or MLM1@NRC.GOV.

Sincerely,

IRA By K. Schneider For

Paul Lohaus, Director
Office of State and Tribal Programs
