RE: Smith Ranch-Highland Uranium Project
NRC License SUA-1548, Docket No. 40-8964
New Position Appointments to Manager- Health, Safety and Environmental
Affairs, and Acting Radiation Safety Officer

Dear Mr. Janosko:

This letter is to inform you that W. F. Kearney, Manager- Health, Safety, and Environmental Affairs, is no longer employed at Power Resources, Inc. (PRI), Smith Ranch-Highland Uranium Project (SR-HUP) as of May 6, 2005. PRI has appointed Ken Milmine as Manager- Health, Safety, and Environmental Affairs for the SR-HUP beginning on May 9, 2005.

In addition, Tim McCullough has been appointed as Acting Radiation Safety Officer for the SR-HUP. Since Mr. McCullough is not current on the bi-annual training requirements outlined in the NRC Regulatory Guide 8.31, oversight for the radiation safety programs at SR-HUP will be performed by Mike Griffin, Manager- Health, Safety and Environmental Affairs for Crow Butte Resources, until such time that Mr. McCullough qualifications meets the requirements outlined in Regulatory Guide 8.31. Mr. McCullough last received the bi-annual radiation safety training in May of 2000 and will attend training this year as soon as reasonably possible. Mr. McCullough has several years of experience as a Radiation Safety Technician and has continued his involvement in radiation safety matters through his current position of Industrial Safety Supervisor. The NRC will be notified once Mr. McCullough has completed bi-annual training and can assume oversight as Radiation Safety Officer.

A member of the Cameco group of companies

If you should have any questions or need further clarification, please contact me at (307) 358-6541 ext. 46 at your earliest convenience.

Sincerely,

Ken Milmine
Manager-Health, Safety
& Environmental Affairs
