Re: Training of David McDonough, CNMT, RT (R)
War Memorial Hospital

Dear Sir/Madam:

This letter is to document that our Nuclear Medicine Radiation Safety Technologist, David McDonough, CNMT, RT (R), has been performing RSO duties under my supervision over the following time period: 9-18-01 to 11-17-04. His knowledge and expertise covering the many regulatory rules and requirements are excellent. I would not hesitate to recommend him for the position as Radiation Safety Officer. Mr. McDonough has over twenty years work experience as a supervising technologist.

I have reviewed Mr. David McDonough's qualifications and have found them to meet all of the 10 CFR part 35 regulations.

Mr. McDonough is registered by The Nuclear Medicine Technology Certification Board. His certificate number is 010379. We have enclosed a copy of this certification for your review.

Mr. McDonough is also registered by The American Registry of Radiologic Technologists. His certificate number is 096721. We have enclosed a copy of this certification for your review.

If you have any questions or require additional information, please contact me at 906-635-4439.

Respectfully Yours,

Robert Baker, M.D.
Radiation Safety Officer

Re: Radiation Safety Officer/Executive Management
Letter of Understanding

Dear David McDonough, CNMT, RT (R)

You have been appointed the Radiation Safety Officer (RSO) of this facility for our United States Nuclear Regulatory Commission Materials License. This "Letter of Understanding" is prepared to comply with Title 10 Code of Federal Regulations (CFR) Part 35.24(b). This section of the regulations requires that you agree in writing to the following:

- Assume responsibility for implementing the Radiation Protection Program
- Ensure that radiation safety activities are being performed in accordance with our own approved procedures and all regulatory requirements.

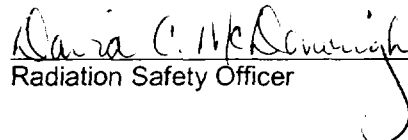

Furthermore, in compliance with 10 CFR 35.24(e),(g), the executive management of this facility agrees to provide you as RSO.

- Specific written notation of you authority, duties, and responsibilities, see attached,
- Sufficient authority, organizational freedom, time, resources, and management prerogative to:
 1. Identify radiation safety problems;
 2. Initiate, recommend, or provide corrective actions;
 3. Stop unsafe operations; and
 4. Verify implementation of corrective actions.

Our signatures noted below will attest to the issues noted above. Please make a copy of this document for your files and return the original to my attention.

Sincerely,

Executive Management

Radiation Safety Officer
