AMERGEN

On April 13, 2005, at 7:00 p.m., an Annual Assessment Meeting was conducted at the Middletown Borough Hall, Middletown, PA, between the Nuclear Regulatory Commission (NRC) and the AmerGen Energy Company. The NRC requested the meeting with AmerGen management to discuss NRC's assessment of the safety performance of the Three Mile Island Nuclear Power Station for calendar year 2004.

The NRC presented and discussed its assessment of the safety performance of TMI Unit 1 for the period between January 1 through December 31, 2004, as documented in our letter dated March 2, 2005. The NRC presentation included background on the Reactor Oversight Process, performance assessment results, an overview of calendar year 2005 planned inspections and oversight, and a discussion of general topics including security. As part of this regulatory performance meeting, AmerGen presented an overview of their performance at the facility.

Local officials, the public and the press observed this public meeting and were offered the opportunity to communicate with the NRC regarding AmerGen's performance and the role of the agency in ensuring safe plant operations at the end of the meeting. The question and answer session ran 1 ½ hours to accommodate all individuals who desired to speak or ask questions after the meeting.

Sincerely,

/RA/
