Subject: Abolition of Nuclear Fire Code

May 23, 2005 (10:49am)

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Please enter this as my official response to the NRC's planned abolition of their Fire Code for Nuclear Power Plants.

When you first proposed allowing radioactive metal to be recycled into consumer goods including radioactive frying pans, there were over 5,000 responses. The most memorable one, was short and to the point. It said simply:

" YOU FOOLS, WHAT ARE YOU TRYING TO DO, KILL US ALL?"

The same can be said of your proposal to abolish Nuclear Fire Codes.

The NRC was established by Congress to protect the health and safety of the public from the dangers of nuclear power plants. By abolishing the national nuclear fire codes, you are publicly confirming my charge that you are incapable of doing your job. I propose that congress abolish the NRC. Let the public know that you are not worth the salaries you are being paid. The utilities should care about their investments enough to voluntarily install fire retardent material in their fire barriers. They should be prudent enough to voluntarily seaparate their electrical cables. When they have asked for exemptions, you have given them. You have long been the nuclear industry lap dog instead of the public's health and safety protector that is your responsibility.

Workers should know that they are being exposed to untenable working conditions. To expect them to manually protect a plant that is burning, because you haven't the gumption to enforce regualtions that would create the safest possible ncuear power plant, is untenable.

I hereby pledge my support to congress to abolish the NRC and to SHUT DOWN EVERY OPERATING NUCLEAR POWER PLANT AND TO RECEND ALL NUCLEAR RELATED SUBSIDIES.

Jeannine Honicker
