<p><u>Summary:</u> I left a message on Mr. Smith's voice-mail requesting that he get back in touch with me.</p> <p>13:25 I was able to reach Mr. Smith. He stated that the Troxler moisture density gauge had been sent back to the manufacturer within the month that the license had been issued. He thought that a request to terminate the license had been sent in but I informed him that no such letter had been received. I told him that the request would need to include the final leak test report on the device and a letter from the manufacturer confirming its receipt of the device. Mr. Smith agreed to send in the required information before the end of the day.</p>
