<p>Summary:</p> <p>Regarding the above, I explained to Dr. Anthony that it appears that this should be a mobile license especially if they do not own or manage the sites listed on the license. He confirmed that they do not own/operate these sites and that this licensee provides the materials and techs at these sites. I told him that I would change the license to reflect their mobile activities, and that they should be sure to have procedures for mobile use if they don't already. I referred him to Appendix V of NUREG-1556, Vol. 9. I also asked him to indicate a possession limit for 35.300 and 31.11 materials. He stated that 200 mCi and 1 mCi , respectively, would be sufficient.</p>			
Action Required/Taken: Complete license amendment.
