Subject: OPPOSE Expansion of Clinton, IL. nuclear plant

I strongly oppose the expansion of the Clinton, IL., plant. The plant was built initially with cost overruns of over 4 billion dollars that were ultimately paid by consumers. That will happen again! The disposal of radioactive waste poses a threat to generations and is clearly not acceptable. The hazards of nuclear power plants and their demonstrated lack of compliance with minimum safety standards is not an acceptable risk.

Means of renewable power generation need to be encouraged.
