I live in Champaign and I wish to go on record as being OPPOSED to a 2nd nuclear reactor in Clinton, IL. It is serious enough having one there. I would prefer none. But the prospect of a seconde one is totally unacceptable to me. Use your funds and energy to develop alternative sources of energy which do not put the population at risk and which do not produce waste products which are hazardous to all life and which are impossible to dispose of with long term safety. E. McCabe
