Subject: Clinton Plant

To whom it may concern , As a physician who has worked at the Clinton Power plant on and off for 3 yrs (91-93) I feel they have a very safe and well run plant there. I've had their training and safety courses and found their workers and staff very dedicated and safety minded. I would have no objection to another unit being built. Incidentally I live only about 4 miles from the plant. Sincerely, John W. Veirs M.D.
