Subject: Second Clinton Plant

Absolutely not! Central Illinois does not want another nuclear power plant. We bought into the first Clinton plant with promises that will probably never be fulfilled, yet we not only paid for it, but we live with its threat to our communities. The track record of the current plant is not good. They need to demonstrate to us, on a consistent basis, that the facility is safe and cost-effective - and run by an organization who knows what they are doing.
