Subject: another nuclear power plant

3/10/05

FR 12022

I must strongly protest the building of another nuclear power plant in Dewitt County.

28

Nuclear power plants create nuclear waste, and our government -- as well as everybody else -- has no real answer to "What do we do with nuclear waste?"

It is long past the time that we should have stopped destroying our world. We MUST stop now. No more nuclear waste, therefore no more nuclear plants. Quite simple!
