RE: Request for Amendment of Materials License #37-10599-01

Dear Sir or Madam,

We are requesting the following amendments to our license:

- 1) Please add Razvan N. Gramatovici, M.D. for Iridium-192 for uses in a High Dose Rate Remote Afterloading Brachytherapy Device. Dr. Gramatovici was recently listed as an authorized user for HDR on amendment # 21 of Warren General Hospital's NRC license # 37-17863-01. Attached are Dr. Gramatovici's CV and a copy of his American Board of Radiology certification.
- 2) Please remove Jin Hong Suk, M.D. (35.100, In vitro studies) from the license. The laboratory is no longer performing testing of this type.

Thank you for your assistance. If there are any questions and/or concerns, please do not hesitate to call me at (814) 676-7148.

Sincerely,

Douglas L. Frankenburg, M.S.
Vice President, Clinical Services
