Mr. Richard W. Boyle, Chief  
Radioactive Materials Branch  
Office of Hazards Material Technology  
U.S. Department of Transportation  
400 Seventh Street S.W.  
Washington, D.C. 20590

SUBJECT: RECEIPT OF APPLICATION - ACKNOWLEDGMENT LETTER

Dear Mr. Boyle:

This refers to your letters dated April 8, 2005, and December 2, 2004, requesting our recommendation concerning revalidation of the French Certificate of Approval No. F/379/B(U)F-96 for the Model No. TN 106 package.

This letter acknowledges receipt of the application and informs you that the application appears to contain the necessary information to begin our technical review. We have established a schedule for the technical review. The schedule allows for the staff to issue a request for additional information (RAI) in September 2005. If no RAI is needed, our recommendation may be issued approximately at that time. In general, no changes or supplements to this application should be submitted, except in response to an RAI.

If you have any questions regarding this matter, you may contact me at (301) 415-8500.

Sincerely,

/RA/

Shawn Williams, Project Engineer
