**Re: Nuclear Information and Resource Service et al. v. Nuclear Regulatory
Commission, No. 04-71432**

Dear Ms. Kim:

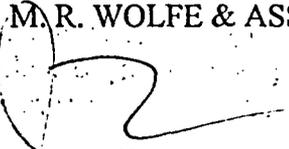

This is a follow up to my last letter requesting that NRC supplement the Index of the Record. I discovered today that the April 26, 2005 Index also omits the following documents that should be part of the record in this matter:

- International Atomic Energy Association, "Advisory Material for IAEA Regulations for the Safe Transport of Radioactive Materials," IAEA Safety Standards Series No. ST-2, referenced at page 75 of the Environmental Assessment, NUREQ/CR-6711
- International Atomic Energy Association, "Regulations for the Safe Transport of Radioactive Materials," IAEA Safety Standards Series No. ST-1, referenced at page 75 of the Environmental Assessment, NUREQ/CR-6711
- U.S. Department of Energy, "Final Waste Management Programmatic Environmental Impact Statement for Managing the Treatment, Storage, and Disposal of Radioactive and Hazardous Waste," DOE/EIS-0200-F, Office of Environmental Management, Washington DC, referenced at page 75 of the Environmental Assessment, NUREQ/CR-6711

We would appreciate it if you would arrange to include these documents in the Index.

Yours sincerely,

M. R. WOLFE & ASSOCIATES
