

U.S. NUCLEAR REGULATORY COMMISSION		Conversation Date: 05/25/05	
<b>TELEPHONE CONVERSATION RECORD</b>		Time: 1:20 PM	
Mail Control or Report No. 136819	License No. 06-07522-02	Docket No. 03003796	
Licensee/Applicant Participant(s): Carlos J. Rivera	Organization: United Technologies	Telephone No. 860-557-2901	
Person(s) Calling: Dennis Lawyer			
Subject: Request for some basic information about the request for license termination			
<p>Summary:</p> <p>First I asked why all the previous final status survey reports were submitted as many locations were not listed on the license. He stated that they were included as these facilities were listed on the license for byproduct material at one time. I stated that the termination of this license would not impact United Technologies source material license and that these facilities would have to be reviewed under that license to be removed. Most of these facilities were not on the byproduct license nor was byproduct material used at those locations and so would not be part of the review.</p> <p>The next question is why he had submitted the termination request when he was not the RSO or the management designated person on record for this license. He stated that the RSO was assigned different duties and he was to facilitate termination of the license. He also told me that he would be assigned to different duties in a couple of weeks.</p> <p>I stated that the remaining issues are proof of leak test of remaining sources or surveys in the area used, the C-14 release not including scans, the amount of paint on the floor in the area where C-14 was used, the needs for surveys in sewer and ventilation where C-14 was used. I told him that I would send a letter detailing the needed information for termination.</p>			
Action Required/Taken: Write letter for more request.
