

March 17, 2005

The Honorable Joseph I. Lieberman
United States Senate
316 Hart Senate Office
Washington, DC 20510

SUBJECT: MILLSTONE POWER STATION - ANNUAL ASSESSMENT OF SAFETY
PERFORMANCE

Dear Senator Lieberman:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Dominion Nuclear Connecticut, Inc. (DNC) in which the NRC staff will discuss with Dominion our annual assessment of the safety performance of Millstone Power Station Unit 2 and Unit 3. The meeting will be held at 3:00 p.m. on March 29, 2005, at the Lelan F. Sillin Training Facility, Rope Ferry Road, Waterford, CT 06385. At the meeting, we will briefly discuss our Reactor Oversight Process and then discuss with DNC our assessment of their safety performance of Millstone Power Station and their response to our assessment.

You are also invited to attend a meeting between the NRC and the Connecticut Nuclear Energy Advisory Council (NEAC) in which the NRC staff will discuss our annual assessment of Millstone performance with NEAC members. The meeting will be held at 6:00 p.m. on March 29, 2005, at the Waterford Town Hall, 15 Rope Ferry Road, Waterford, CT 06385.

Both meetings are open to the public for observation. Following the meetings, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Millstone and the role of the NRC in ensuring safe plant operations. Please feel free to contact me in advance if there are any particular topics of interest that you would like to discuss at either meeting.

The NRC recently completed its annual assessment of the safety performance of the Millstone Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2004 through December 31, 2004. We described our assessment results in a letter to DNC on March 2, 2005. A copy of this letter is enclosed. The assessment letter, the NRC's meeting notice with meeting agenda for Millstone and the NRC's meeting notice with agenda for NEAC can be found in the NRC's online document system (ADAMS) by accession numbers ML050610512, ML050680229 and ML050730371. The draft Millstone Station meeting slides can be found in ADAMS by accession number ML050730393 and the draft NEAC meeting slides can be located by accession number ML050760140. ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance of Millstone through the NRC Web site. This information may be accessed at:

<http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html>.

Your schedule permitting, I look forward to meeting you on March 29, 2005. In the interim, please do not hesitate to contact me at 610-337-5120, if I can be of further assistance to you.

Sincerely,

/RA/

Paul G. Krohn, Chief
Projects Branch 6
Division of Reactor Projects

Enclosure: As Stated

March 17, 2005

Mr. James Sherrard
66 Algonquin Drive
Mystic, CT 06355

SUBJECT: MILLSTONE POWER STATION - ANNUAL ASSESSMENT OF SAFETY
PERFORMANCE

Dear Mr. Sherrard:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Dominion Nuclear Connecticut, Inc. (DNC) in which the NRC staff will discuss with Dominion our annual assessment of the safety performance of Millstone Power Station Unit 2 and Unit 3. The meeting will be held at 3:00 p.m. on March 29, 2005, at the Lelan F. Sillin Training Facility, Rope Ferry Road, Waterford, CT 06385. At the meeting, we will briefly discuss our Reactor Oversight Process and then discuss with DNC our assessment of their safety performance of Millstone Power Station and their response to our assessment.

You are also invited to attend a meeting between the NRC and the Connecticut Nuclear Energy Advisory Council (NEAC) in which the NRC staff will discuss our annual assessment of Millstone performance with NEAC members. The meeting will be held at 6:00 p.m. on March 29, 2005, at the Waterford Town Hall, 15 Rope Ferry Road, Waterford, CT 06385.

Both meetings are open to the public for observation. Following the meetings, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Millstone and the role of the NRC in ensuring safe plant operations. Please feel free to contact me in advance if there are any particular topics of interest that you would like to discuss at either meeting.

The NRC recently completed its annual assessment of the safety performance of the Millstone Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2004 through December 31, 2004. We described our assessment results in a letter to DNC on March 2, 2005. A copy of this letter is enclosed. The assessment letter, the NRC's meeting notice with meeting agenda for Millstone and the NRC's meeting notice with agenda for NEAC can be found in the NRC's online document system (ADAMS) by accession numbers ML050610512, ML050680229 and ML050730371. The draft Millstone Station meeting slides can be found in ADAMS by accession number ML050730393 and the draft NEAC meeting slides can be located by accession number ML050760140. ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.
