we have had the emergency arb that included personnel from NRR and agreed to refer the issue to the Licensee. The refer was made

RTH
release

Since the concern was based on an NRR mandated inspection I want to transfer the total allegation (point beach portion and the generic aspect) to NRR. As I see the issue the expertise to answer the point beach specific and generic aspect portion of the allegation rest solely with NRR

do you accept

HELLER, HILLS, & LOUDEN PARTICIPATED in a phone call on 5/28/04 between ~~the~~ RTH & NRR. During the call it became clear that NRR has taken complete ownership of this allegation & that RTH has only a support role in the evaluation of this allegation. In addition to the technical issue the NRR staff discussed the initial arb (who to have it), the Ack LTR, and when would be the best time to call the CT to ensure that NRR has the complete set of concerns & to provide a big picture overview to the CT
