LICENSEE: Dominion Nuclear Connecticut, Inc. and Virginia Electric and Power Company

FACILITY: Surry and North Anna Power Station, Units 1 and 2 and Millstone Nuclear Power Station, Units 2 and 3

SUBJECT: SUMMARY OF APRIL 26, 2005, MEETING WITH DOMINION NUCLEAR CONNECTICUT, INC. AND VIRGINIA ELECTRIC AND POWER COMPANY TO DISCUSS CURRENT LICENSING ISSUES

On April 26, 2005, a Category 1 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Dominion Nuclear Connecticut, Inc. and Virginia Electric and Power Company (the licensee) at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. The purpose of the meeting was to discuss the status of licensing actions that are under NRC staff review and exchange information on the quality of licensing submittals. A list of attendees is provided as Enclosure 1.

The licensee presented prioritized lists of licensing actions for North Anna, Surry, and Millstone. Refer to Enclosures 2 and 3. The licensee and the NRC staff discussed the status of licensing actions that were under NRC staff review and whether the NRC staff could support the licensee's expected completion dates. The licensee and the NRC staff addressed the continuation of cross-regional submittals, including the NRC staff's expectations on the quality of these submittals.

Regarding the issuance of letters, the NRC staff agreed to improve its process for sending correspondence. This will ensure that the licensee is able to respond to the NRC staff's requests for additional information in a timely manner. Both parties provided feedback on the quality of licensing submittals and safety evaluations.

Members of the public were not in attendance. Public Meeting Feedback forms were provided, but the NRC staff did not receive any comments. Please direct any inquiries to Stephen R. Monarque at 301-415-1544, or [srm2@nrc.gov](mailto:srm2@nrc.gov).
