SUBJECT: ACCEPTANCE OF TOPICAL REPORT BAW-10241(P), REVISION 1,  
"EXTENSION OF THE BHTP CHF [CRITICAL HEAT FLUX] CORRELATION  
RANGES," FOR REVIEW (TAC NO. MC6374)

Dear Mr. Holm:

By letter dated March 11, 2005, Framatome ANP submitted for Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) BAW-10241(P), Revision 1, "Extension of the BHTP CHF Correlation Ranges." The NRC staff has performed an acceptance review of the TR and found that the material presented is sufficient to begin our comprehensive review. The staff expects to issue requests for additional information by May 20, 2005, complete its review by June 6, 2005, and issue the final safety evaluation by August 1, 2005. The staff estimates that the review will require approximately 180 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between Gayle Elliot and the NRC staff on May 10, 2005.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly.

Sincerely,

/RA/
