Donna Randall, Ph.D. Provost University of Hartford 200 Bloomfield Avenue West Hartford, CT 06117

SUBJECT: UNIVERSITY OF HARTFORD, LICENSE AMENDMENT, CONTROL NO. 137081

Dear Dr. Randall:

This refers to your license amendment request. Enclosed with this letter is the amended license. The facility at Rooms 349A and 349C of Dana Hall may be released for unrestricted use.

In accordance with NRC Regulatory Issue Summary (RIS) 2004-17: Revised Decay-In-Storage Provisions for the Storage of Radioactive Waste Containing Byproduct Material (<u>http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2004/ri200417.pdf</u>), your license has been modified. Your license now contains a revised decay-in-storage (DIS) condition. This revised condition permits greater flexibility for DIS of waste by eliminating a specific holding period prior to disposal. Please review the RIS 2004-17, and the revised condition carefully to ensure that you understand its requirements.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are available at the NRC web site at <u>http://www.nrc.gov/materials/miau/mat-toolkits.html</u> and <u>http://www.nrc.gov/who-we-are/governing-laws.html</u> or by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 9:00 p.m. EST, Monday through Friday (except Federal holidays).

D. Randall University of Hartford

Thank you for your cooperation.

Sincerely,
