SUBJECT: SUMMARY OF MAY 26, 2005, PUBLIC MEETING REGARDING NRC
INCIDENT RESPONSE, THE NATIONAL RESPONSE PLAN (NRP) AND
THE NATIONAL INCIDENT MANAGEMENT SYSTEM (NIMS)

On May 26, 2005, the Nuclear Regulatory Commission (NRC) Office of Nuclear Security and Incident Response (NSIR) management and staff held a Category 3 public meeting to discuss NRC incident response, the National Response Plan (NRP) and the National Incident Management System (NIMS) at NRC Headquarters (HQ). This meeting was the last in a series of public meetings and outreach opportunities that have sought to inform and discuss issues related to NRC's incident response role and the implementation of the NRP and NIMS. The agenda is provided as Attachment 1, and a list of meeting attendees is provided in Attachment 2.

NSIR staff made two presentations and actively engaged the attendees throughout the meeting, which resulted in a useful information exchange. Topics discussed included event classification and action levels, notification, communications, and implementation of the "dark" website. Attachment 3 contains the slides/handouts used to support these presentations.
