Subject: Revision 15 to the Yankee Nuclear Power Station Security Plan

Pursuant to 10 CFR 50.54(p) and 10 CFR 50.4(b)(4) of the Commission's Rule and Regulations, Yankee Atomic Electric Company (YAEC) is informing the Nuclear Regulatory Commission (NRC) of a change to the Security Plan for the Yankee Nuclear Power Station (YNPS).

All changes have been annotated with sidebars in the left-hand margin. Attachment A provides details of these changes.

An evaluation of Revision 15 in accordance with 10 CFR 50.54(p) has determined that it does not reduce the safeguards effectiveness of the Plan and as a whole continues to meet the standards of 10 CFR 73.55 as applicable.
