Subject: **Building 6A Pre-Dismantlement Radiological Survey Report**

Dear Ms. Kauffman:

ABB Prospects Inc. (ABB) is pleased to provide the enclosed document, "Building 6A Pre-Dismantlement Radiological Survey Report" for your information. This building is inherently "clean" with the exception of a sump, which has been remediated. Unlike the Building 2, 5, and 17 Complexes, there is no license requirement for NRC approval for dismantlement of Building 6A, and ABB plans to demolish the structure this summer. This topic was discussed during the NRC Windsor Site tour on June 9, 2004.

If there are any questions or comments regarding the enclosed document, please contact me at (860) 285-5002.

Sincerely,

ABB PROSPECTS INC.

John F. Conant
Senior Project Manager
