**Subject:** Additional Information

---

**Summary:** I called Mr Votto to request the following:

Details of hot lab were not included with the request. I asked him to provide locations of storage of radiopharmaceuticals and radioactive waste storage area(s).

He will send the details soon. Control No. 126465 was provided to him.

2/9/99:

Licensee's response indicated that the new location is Building 3, but in its original request, the licensee stated that the location was Building 2. I called the licensee to resolve this discrepancy and requested another letter that is signed by a management's representative. He stated that the correct address is Building 2.

My call was returned by Mr. Christopher Beaulieu. He will respond and have the letter signed by Dr. Lehman, who is the Medical Director.
