Subject: May 15(?) letter requesting change of mailing and billing address and change of RSO

A letter was received from Kory Kodimer, the Corporate manager of health physics, for Cardinal Health regarding their 45-25339-01 license for activities in Roanoke and Charlottesville, VA. At this time, the license is still independent form the Cardinal Health multi-state license.

The May 15 letter requests that the mailing and billing address be changed from Woodland Hills, CA to Dublin, OH. Although this is true for the multi-state Cardinal Health license, the 45-25339-01 license has a mailing address of Roanoke, VA. If we change the mailing address, then we must terminate the 45- license and issue a license number with the Ohio prefix.

I called Kodimer's number, but he is out until June 6. Looking at a past licensing action, I found a contact number for David Breuning, who is now moved to the Dublin office. He stated that he does not have the authority to make decisions for Kodimer, but that he does not believe it was Kodimer's intention to terminate one license and issue another, because they plan to amend the multi-state license to include the Roanoke and Charlottesville facilities, then terminate the 45- license.

I stated that, at this time, we will process the amendment as a request for a billing address change, and RSO change only. I also stated that I would put a note in the file for the license reviewer to confirm if this is correct with Kodimer. If we need to open a new license action, we can do it later.
