

March 4, 2005

Mr. James Barrington
Town Manager
Hampton Town Hall
100 Winnacunnet Road
Hampton, NH 03842

SUBJECT: SEABROOK STATION - ANNUAL ASSESSMENT OF SAFETY PERFORMANCE

Dear Mr. Barrington:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and FPL Energy Seabrook, LLC (FPL) in which the NRC staff will discuss with FPL our annual assessment of the safety performance of Seabrook Station.

The meeting will be held at 3:00 p.m. on March 16, 2005, at the Seabrook Emergency Operations Facility, 165 Gosling Road, Newington, NH. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with FPL our assessment of their safety performance of Seabrook Power Station and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Seabrook and the role of the NRC in ensuring safe plant operations. Please feel free to contact me in advance if there are any particular topics of interest that you would like to discuss at the meeting.

The NRC recently completed its annual assessment of the safety performance of the Seabrook Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2004 through December 31, 2004. We described our assessment results in a letter to FPL on March 2, 2005. A copy of the assessment letter and the NRC's meeting notice with agenda are enclosed.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Seabrook through the NRC Web site. This information may be accessed at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on March 16, 2005. In the interim, please do not hesitate to contact me at 610-337-5120, if I can be of further assistance to you.

Sincerely,

/RA/

Paul G. Krohn, Chief
Projects Branch 6
Division of Reactor Projects

Please feel free to contact me in advance if there are any particular topics of interest that you would like to discuss at the meeting.

The NRC recently completed its annual assessment of the safety performance of the Seabrook Power Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from January 1, 2004 through December 31, 2004. We described our assessment results in a letter to FPL on March 2, 2005. A copy of the assessment letter and the NRC's meeting notice with agenda are enclosed.

You can also become familiar with our Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance at Seabrook through the NRC Web site. This information may be accessed at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on March 16, 2005. In the interim, please do not hesitate to contact me at 610-337-5120, if I can be of further assistance to you.

Sincerely,

/RA/

Representative Frank J. Palazzo
PO Box 321
Seabrook, NH 03874

SUBJECT: SEABROOK STATION - ANNUAL ASSESSMENT OF SAFETY PERFORMANCE

Dear Rep. Palazzo:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and FPL Energy Seabrook, LLC (FPL) in which the NRC staff will discuss with FPL our annual assessment of the safety performance of Seabrook Station.

The meeting will be held at 3:00 p.m. on March 16, 2005, at the Seabrook Emergency Operations Facility, 165 Gosling Road, Newington, NH. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with FPL our assessment of their safety performance of Seabrook Power Station and their response to our assessment. The meeting is open to the public for observation. Following the presentation, the NRC staff will be available to answer questions from you and members of the public regarding the safety performance of Seabrook and the role of the NRC in ensuring safe plant operations. Please feel free to contact me in advance if there are any particular topics of interest that you would like to discuss at the meeting.
